

Pineapple is very sweet and nutritious.

It has a lot of waste,

hence why a lot of juice producers avoid production of fresh Pineapple juice only.

We have been able to carve a niche for ourselves in the area of Fresh Pineapple juice production.

We currently have a lot of Supermarkets requesting for the Pineapple juice along side our branded chillers.

We plan to extend our product to all Supermarkets requesting and other leading supermarkets and pharmacies in Lagos, Nigeria. We need industrial juicers and chillers.

We will be building a factory in Benin, Nigeria within the next 3 years

Benin is the largest producer of Pineapples in Nigeria

How New Farmers Can Venture Into Pineapple Farming

Edo State is notable for the production of pineapple, and the farmers in the state say it is lucrative, but the production is limited because of some challenges...
